**Subject:** Microsoft Settlement

To DOJ:

It seems appropriate that the DOJ finalize the settlement agreement at this time.

I found it hard to comprehend the concept that Microsoft stifled competition when they actually were an incubator and catalyst for the most concentrated intellectual development in history.

Sour grapes has cost all of us too much time and money.

Get on with the settlement and let's get back to more important issues.

Sincerely,

James J. Morgan  
Paradise Valley, AZ.
